

LOST YOUR PET? FOUND SOMEONE ELSE'S?

Microchip and keep your details up to date

- Make sure your pet is microchipped.
- Keep your contact details up to date.
- Notify the organisation that has your microchip details if your pet is missing. Remember to tell them when your pet is found.

To find your pet's microchip registration details go to:
www.petaddress.com.au

Contacts

If you have lost or found a pet contact:

- Vets in the area.
- RSPCA ACT (02) 6287 8100,
email rspca@rspca-act.org.au.
- Domestic Animal Services (DAS) 13 22 81.

You can also refer to:

- The Canberra Lost Pet Database through it's Facebook page
- Local Community noticeboards on Facebook

Remember to notify them when your pet is found.

Looking for a lost pet

As well as contacting the vets in the area, RSPCA ACT and Domestic Animal Services you should also:

- Thoroughly search your property and surrounding area.
- Check with neighbours and other people in the area.
- Create a 'Lost' poster to display on community noticeboards and drop in letterboxes in the area.

Found someone's pet

If you find a pet:

- Check for identification tags and contact owner if possible.
- Take the pet to the nearest vet clinic or animal shelter. They can scan for a microchip and access owner details.
- Post flyers in the neighbourhood where the pet was found and use social media including those listed in contacts on this leaflet.
- Be sure to check 'lost' reports.

Tips for posters

If you are making lost or found posters it helps to include a clear photograph of the animal.

If you are making a found poster let them know where the animal is and who to contact, and ask for proof of ownership.
